

Dear Parents!

November is slowly approaching so we are getting ready for our attractive speak:art English lessons. This month our students will learn new songs about body parts and will complete a portfolio worksheet "I love my body". In the third they will take part in movement games to practise action verbs and at the end of the month they will celebrate Thanksgiving Day during American Week. What's more? Check it out below :)

What have we prepared for this month?

In the first week of November, we will learn to name in English some parts of our faces. We will be singing songs. [Parts Of The Face](#) is for older students, and [Parts of the face](#) is for the youngest. Some students will do a project that we called: *Faces around the world!* We will talk about differences between skin colours, and shapes of eyes or noses. All these make the world interesting and varied. And that is so beautiful!

The second week will be about other body parts. The beloved song [Head Shoulders Knees And Toes](#) is simply a must-sing. Additional older students will get familiar with [This Is Me](#). We will also be discovering and counting how many toes, fingers, and eyes we have.

In the third week, we will focus on what our bodies can do. We will check what our hands, legs and heads are able to do. Zbadamy sprawczość naszych rąk, nóg i głów. The older kids will be singing [My Body!](#) and the younger ones [Clap Your Hands](#).

The last week of November is all about American culture. We will find out who Native Americans are, we will talk about flags, sports, and food. We will take part in the annual Thanksgiving feast and learn about gratitude and the power of the word "Thanks". Just as every month, our teachers will fill up the November classes with many interesting language games and unforgettable attractions.

życzymy przyjemnej nauki oraz wspaniałej zabawy!
