

Ho, ho, ho, Dear Parents!

Who would have thought that Christmas is just over 3 weeks away? As every year we strongly encourage you to use this opportunity to stock up with fantastic English books for your children! Besides the literature you may think of various English toys and games, which can facilitate bilingualism at your home. The toys not necessary need to be in English - only your creativity will limit the possible ways of using memory cards or basic picture cards.

If you need the professional support in choosing books suitable for your child, contact [Ola Ostrowska](#)! As an official Usborne representative she will also offer special discounts for speak:art students.

życzymy przyjemnej nauki oraz wspaniałej zabawy!

What have we prepared for this month?

In the first week of December, we will be learning to name toys in English so that we can say what we would like to get for Christmas. Older students will be singing the song [What do you want for Christmas?](#), and the youngest ones [The Way We Play With Toys](#). We will also talk about how important it is to clean up our rooms. We will learn about good habits with the [Clean up](#) song. In żłobek, the first week of December will be all about teddy bears, the song [10 in Bed](#), and a project - Picnic with Teddy Bears!

In the second week of December, we will learn the most important words related to Christmas. Each group will choose and learn to sing their favourite Christmas song. The students in żłobek will learn the names of toys they play with.

In the third week of December we will continue talking about Christmas and singing our favourite Christmas songs. We will learn to describe shapes of Christmas presents and ornaments that we put on our Christmas trees. Older students will practice the target vocabulary by singing [Christmas Shapes](#) and younger ones [Draw Shapes On the Christmas](#).

For those who will continue English classes during the Christmas break, **the fourth week of December** will be all about revision of vocabulary we've been learning since the beginning of this school year.
