

Dear Parents!

We are happy to welcome you in 2023! We hope that everyone got some rest during the Christmas break and the children are ready for the attractions that we have prepared for January. We will meet a very nice bunny, Roo, who is going to invite us to play together using an interactive book by Marysia Bursche.

What have we prepared for this month?

In the first week of January, all our preschoolers and children in żłobek are going to revise the material introduced in the previous months. Regular repetitions are the key to effective learning of a foreign language, which is why speak:art cannot miss them.

życzymy przyjemnej nauki oraz wspaniałej zabawy!

That means singing the songs and a week full of different language games, movement activities and maybe even some projects! Who knows, where the imagination will take our teachers!

In the second week of January, older groups will learn to name various winter activities and snow games. The songs [This is the Way We Sled](#) and [Snowman Dance](#) will be sung by older students, while younger children will focus on dressing a snowman with the support of [I'm A Little Snowman](#) song.

A real fun awaits our students **in the third week!** We will have the pleasure of working with the original materials of Marysia Bursche, who, under the banner of Head Full of Ideas, creates outstanding quality teaching materials. Our preschoolers will work using the *booktelling* method, which means that they will not only learn about the preschool life of Roo the bunny, but will also have a chance to experience a unique way of reading and going through the content of books.

In the fourth week of January, most groups will still enjoy spending time with Roo, especially in the context of playing outside (warm clothes for the winter time). We will put some warm clothes on the bunny (a hat, a scarf, socks, winter boots) and sing the following songs: [WINTER song for children](#) (6-year-olds), [Put On Your Boots](#) (3-5 year olds) and [Mitten Colors Song](#) (2-year-olds and żłobek). The youngest children will focus on playing with the mittens, i.e. *mittens/ mitts*.

Great fun and a lot of learning guaranteed!

Have a sparkling New Year!
