

## Dear Parents!

We have an important month ahead! For February we have planned 3 different topics in our curriculum. We can assure you that none of the children will be bored during our English lessons!

## What have we prepared for this month?

We will begin this month by exploring the topic that is present in our daily lives. All in all, we have to get to kindergarten somehow every day. Some come by bus, others by car, and some on foot. And so, about **transport**, we will be talking in the first week of February. Older kids will get familiar with the [Transportation Action](#) song, younger ones will sing [Let's be planes!](#)

In the second week of February, the [Bicycle](#) song will introduce new vocabulary connected with transport. We will describe different means of transport, and older kids will take part in the project about the most **eco-friendly** vehicle.

In the third week, around **Valentine's Day**, we will talk about family. Older kids will learn to introduce their **family** members. We will do a classic **Show&Tell** activity. Younger kids will get familiar with the song: [Where Is Baby?](#)

A very important topic is waiting for us in the last week of February. We will talk about **diseases and our well-being!** We will learn to name symptoms that might bother us, especially at the end of winter. Younger kids will practise new vocabulary by singing [Baby Is Sick](#) and the older ones [Sick Song](#).

**życzymy przyjemnej nauki oraz wspaniałej zabawy!**
